

Artivaa AI

Meeting intelligence that turns conversations into action —
automatically.

The Problem

- ▶ Teams spend **23+ hours/week** in meetings — decisions fade, action items get lost
- ▶ Existing tools produce transcripts, not **outcomes**
- ▶ Knowledge is trapped in silos — no workspace-level context or follow-through
- ▶ Manual note-taking ≠ accountability; CRM and project tools stay disconnected

Gap: No platform connects live meeting capture → AI analysis → workspace tasks → team execution in one flow.

Our Solution

- ▶ **AI meeting bot** joins Zoom, Google Meet, and Teams — records and transcribes in real time
- ▶ **Instant intelligence:** summaries, decisions, risks, and action items extracted automatically
- ▶ **Workspace hub:** meetings, documents, and tasks unified per project or client
- ▶ **Collaboration:** invite members, assign owners, track completion — all in one place

Live transcription

Action items

Document AI

Calendar sync

Team workspaces

Product Highlights

- ▶ One-click bot start/stop from meeting dashboard
- ▶ Google & Microsoft calendar integration
- ▶ AI-generated meeting summaries & key points
- ▶ Structured action items with assignees & due dates
- ▶ Move meetings across workspaces with approval flow
- ▶ Document analyzer — upload PDFs, get insights & Q&A
- ▶ Role-based workspace access (owner, member, viewer)
- ▶ Secure auth via Clerk + OAuth (Google, Microsoft)
- ▶ Real-time status updates during bot sessions
- ▶ Export-ready outputs for stakeholders

Market Opportunity

\$12B+

Meeting software TAM (2026)

35%

YoY growth in AI meeting tools

**SMB →
Enterprise**

Consulting, agencies, product teams

- ▶ **Initial ICP:** consulting firms, agencies, and remote-first teams (5–200 people)
- ▶ **Expansion:** enterprise sales, vertical templates (legal, healthcare, finance)
- ▶ **Trend tailwind:** hybrid work + AI adoption mandates measurable meeting ROI

Business Model

Tier	Price	Includes
Starter	\$19/user/mo	5 meetings/mo, 1 workspace, basic summaries
Pro	\$49/user/mo	Unlimited meetings, document AI, calendar sync
Team	\$79/user/mo	Multi-workspace, admin controls, priority bot
Enterprise	Custom	SSO, SLA, on-prem bot option, dedicated support

Unit economics target: 70%+ gross margin · LTV/CAC > 3x · payback < 12 months

Traction & Status

- ▶ **Live product** deployed on Vercel + Render + Neon PostgreSQL
- ▶ Full stack: Next.js frontend, Express API, Python AI bot service
- ▶ Auth, calendar OAuth (Google + Microsoft), workspace collaboration shipped
- ▶ Meeting bot pipeline: join → transcribe → analyze → persist action items
- ▶ Document analyzer module operational for PDF intelligence

Production deploy

Multi-tenant DB

Beta customers next

Technology Stack

- ▶ **Frontend:** Next.js 15, React, Tailwind, Clerk auth
- ▶ **API:** Express.js, Drizzle ORM, PostgreSQL (Neon)
- ▶ **AI Bot:** Python, Playwright, Whisper/STT, LLM analysis
- ▶ **Infra:** Vercel, Render, Docker — cloud-native, scalable

```
graph TD; Vercel["Vercel (Web)"] --> RenderAPI["Render API (Express)"]; RenderAPI --> RenderBot["Render Bot (Python)"]; RenderBot --> Neon["Neon PostgreSQL"];
```

Modular architecture — bot scales independently; API handles webhooks, workspaces, and orchestration.

Competitive Edge

Capability	Otter / Fireflies	Artivaa AI
Transcription	✓	✓
Workspace + tasks	Limited	Native, integrated
Document AI	×	✓
Multi-workspace org model	×	✓
Meeting → execution loop	Partial	End-to-end

Roadmap 2026

Q2 — Launch

- ▶ Bot on Render (production scale)
- ▶ 10 beta design partners
- ▶ Billing (Stripe) + usage metering

Q3 — Growth

- ▶ Slack / Notion / Jira integrations
- ▶ Team analytics dashboard
- ▶ Mobile-responsive improvements

Q4 — Scale

- ▶ Enterprise SSO (SAML)
- ▶ Custom bot branding
- ▶ API for third-party apps

2027 — Expand

- ▶ Vertical AI templates
- ▶ Multi-language support
- ▶ International GTM

Team & Ask

- ▶ **Founder:** [Your Name] — full-stack builder, product & GTM
- ▶ Built entire platform solo: frontend, API, AI bot, deployment pipeline
- ▶ Deep experience in [your background — e.g. SaaS, consulting, AI]

Raising: \$[Amount] pre-seed / seed

Use of funds: 40% engineering · 30% GTM & beta · 20% infra · 10% ops

Milestone: 50 paying teams within 12 months · \$500K ARR path

Vision

Every meeting should produce clear outcomes — not forgotten notes.

Artivaa AI is the operating system for meeting-driven work: capture intelligence, assign accountability, and close the loop — automatically.

Meetings → Insights

Insights → Tasks

Tasks → Results

Let's build the future of meeting intelligence.

We're looking for partners who believe conversations should drive execution.
